### Professional Summary

---

Dynamic technology leader with extensive experience in shaping and executing innovative technology strategies. Proven track record in developing scalable platforms and managing high-performing engineering teams. Adept at overseeing technical operations, implementing data security best practices, and driving growth in fast-paced environments. Committed to fostering collaboration and evaluating emerging technologies to enhance organizational success.

### Work Experience

---

IBM 2023 - Present

Senior Director of AI Strategy

As the Senior Director of AI Strategy at IBM, I had the privilege of leading the organization's vision for artificial intelligence, driving transformative initiatives that positioned us at the forefront of the industry. My primary responsibility was to create a cohesive AI strategy that aligned with IBM's broader business objectives while enhancing our capabilities to deliver innovative solutions to our clients.

In this role, I spearheaded the development and execution of AI-driven initiatives, working closely with cross-functional teams to ensure alignment on goals and deliverables. I led the architecture and deployment of scalable AI platforms, leveraging advanced data analytics and machine learning methodologies to solve complex business problems and optimize operational efficiency.

One of my key achievements was building and nurturing a high-performing team of AI experts, data scientists, and engineers. Through mentorship and collaboration, I cultivated an environment that encouraged creativity and innovation, enabling my team to push the boundaries of what was possible with AI technologies. I also prioritized professional development, ensuring my team remained at the cutting edge of emerging trends and tools in the AI landscape.

In addition to leading technical initiatives, I collaborated closely with other executives to integrate AI strategies across various business units. This required not only a strong technical foundation but also exceptional communication skills to convey complex concepts to stakeholders at all levels. I championed data security and compliance best practices within our AI frameworks, ensuring that our solutions adhered to industry regulations and ethical standards.

Evaluating emerging technologies was another crucial aspect of my role. I worked diligently to identify potential partnerships and investments that could enhance our AI capabilities, ensuring IBM remained a leader in the technology space. I represented IBM at industry conferences and thought leadership events, sharing insights on the future of AI and its implications for various sectors.

In summary, my tenure as Senior Director of AI Strategy at IBM was marked by a commitment to innovation, collaboration, and ethical AI practices. I was honored to contribute to a legacy of excellence and help shape the future of AI in a rapidly evolving technological landscape.
