Professional Summary

Dynamic technology leader with extensive experience as a Chief Technology Officer (CTO), adept at shaping and executing innovative technology strategies. Proven track record in developing scalable platforms, building high-performing engineering teams, and overseeing technical operations. Strong strategic mindset complemented by technical expertise to drive innovation in fast-paced environments. Committed to excellence in data security and compliance practices.

Work Experience

IBM 2023 - Present

Senior Director of AI Strategy

As the Senior Director of AI Strategy at IBM, I was responsible for driving the vision and execution of AI initiatives across the organization. This role required a blend of strategic insight and technical expertise, enabling me to architect AI solutions that align with business objectives and enhance operational efficiency.

My primary responsibilities included defining the AI roadmap, leading cross-functional teams to innovate and implement AI-driven projects, and fostering a culture of data-driven decision-making. I collaborated closely with product, engineering, and marketing teams to ensure AI capabilities were integrated seamlessly into our offerings.

In addition, I evaluated emerging AI technologies and trends, assessing their potential impact on our strategic goals. I also championed ethical AI practices, ensuring compliance with regulatory standards and promoting transparency in AI deployments.

This position required not only a deep understanding of AI methodologies but also exceptional leadership skills to inspire and guide a diverse team of professionals. Overall, my role was pivotal in positioning IBM as a leader in AI, driving growth and customer satisfaction in a rapidly evolving technological landscape.
