### Professional Summary

---

Dynamic technology leader with extensive experience as a Chief Technology Officer driving innovation and executing strategic visions. Proven track record in developing scalable platforms, building high-performing engineering teams, and overseeing technical operations. Adept at implementing data security best practices and evaluating emerging technologies to enhance business growth in fast-paced environments. Ready to lead Ambiance into its next phase of technological advancement.

### Work Experience

---

Google 2013 - 2014  
IT Director

As IT Director at Google, I spearheaded the development and implementation of innovative technology strategies to enhance operational efficiency and drive growth. I managed a diverse engineering team, ensuring high performance while overseeing day-to-day technical operations. My role involved evaluating emerging technologies, ensuring data security and compliance, and fostering collaboration across departments. By aligning technology initiatives with business goals, I contributed to a culture of innovation and positioned the organization for sustainable success in a dynamic market.

Google 2013 - 2014  
IT Director

As IT Director at Google, I spearheaded the development and execution of innovative technology strategies, ensuring alignment with organizational goals. I led a talented engineering team, optimizing technical operations for efficiency and security. My role involved overseeing scalable platform architecture, evaluating emerging technologies, and implementing best practices for data security and compliance. Collaborating closely with executive leadership, I fostered a culture of innovation and excellence in a dynamic, fast-paced environment, driving significant advancements in our technology landscape.

Google 2013 - 2014  
IT Director

As IT Director at Google, I spearheaded the strategic vision for technology implementation, ensuring seamless integration across platforms. I led a talented engineering team, fostering innovation while overseeing daily technical operations. My role involved developing scalable solutions, enhancing data security, and evaluating emerging technologies to maintain our competitive edge. Collaborating with executive leadership, I aligned our IT strategy with business objectives, driving efficiencies and elevating user experiences in a rapidly evolving tech landscape.

Google 2013 - 2014  
IT Director

As IT Director at Google, I spearheaded the development and execution of innovative technology strategies, ensuring seamless integration of scalable platforms. I led a dynamic engineering team, fostering a culture of collaboration and excellence. My role involved overseeing technical operations, implementing robust data security measures, and evaluating emerging technologies to drive continuous improvement. Collaborating with cross-functional leaders, I ensured alignment with business objectives while navigating the fast-paced tech landscape to enhance operational efficiency and drive growth.

IBM 2023 - Present  
Senior Director of AI Strategy

As Senior Director of AI Strategy at IBM, I led the development and execution of innovative AI initiatives, driving integration across business units. I formulated strategic roadmaps, ensuring alignment with corporate goals while fostering collaborative environments. My focus was on leveraging cutting-edge technologies to propel business growth, enhancing operational efficiency, and cultivating partnerships. I also guided diverse teams in deploying AI solutions, prioritizing ethical considerations and compliance, ultimately positioning IBM as a leader in AI innovation.

### Education

---

Lamar University 2013 - 2015  
masters

### Certifications

---

Coursera 2025-01-01  
Marketing

Google 2013-01-10  
Certificate

### Skills

---

Strategic Leadership, Technical Vision, Scalable Platform Development, Team Building, Data Security Compliance, Innovative Problem Solving, Technical Operations Management, Emerging Technology Evaluation, Cross-Functional Collaboration, Agile Methodologies, Software Development Life Cycle, Performance Optimization, Risk Management, Budgeting and Resource Allocation.
