

Professional Summary

Dynamic technology leader with extensive experience as a Chief Technology Officer, adept at shaping and executing innovative technology strategies. Proven track record in developing scalable platforms, driving operational excellence, and building high-performing engineering teams. Expertise in data security, compliance, and evaluating emerging technologies to propel organizational growth and enhance competitive advantage in fast-paced environments.

Work Experience

IBM2023 - Present

Senior Director of AI Strategy

As Senior Director of AI Strategy at IBM, I spearheaded the development and implementation of innovative AI initiatives that aligned with corporate goals. My role involved collaborating with cross-functional teams to identify opportunities for AI integration, enhancing product offerings and operational efficiencies. I led strategic planning, leveraging data-driven insights to inform decision-making and prioritize projects. Additionally, I fostered a culture of innovation, mentoring teams on AI best practices while ensuring compliance with ethical standards. My focus was on driving sustainable growth through cutting-edge AI solutions, positioning IBM as a leader in the rapidly evolving AI landscape.
