Professional Summary

Dynamic technology leader with extensive experience as a Chief Technology Officer (CTO), specializing in scalable platform development and high-performing team management. Proven track record in defining and executing technology strategies, driving innovation, and ensuring data security. Adept at overseeing technical operations and collaborating with executives to align technology initiatives with business goals in fast-paced environments.

Work Experience

Google   2013 - 2014
IT Director

As an IT Director at Google, I was responsible for steering the technology strategy and ensuring alignment with business objectives. My role involved leading a diverse team of engineers and IT professionals, fostering innovation while managing complex technical operations. I oversaw the development and implementation of scalable platforms, ensuring they met high-performance standards. A crucial part of my responsibilities included enforcing data security protocols and compliance measures to protect sensitive information. I collaborated with cross-functional teams to evaluate emerging technologies, driving operational efficiency and enhancing user experiences. My strategic mindset and technical expertise allowed me to navigate the fast-paced environment, enabling Google to maintain its leadership in the tech industry while adapting to ever-evolving challenges and opportunities.

Google   2013 - 2014
IT Director

As the IT Director at Google, I was responsible for driving the technology strategy and ensuring alignment with business objectives. I led a talented team of engineers and IT professionals, fostering a culture of innovation and continuous improvement. My role involved overseeing the design and implementation of scalable IT infrastructure, enhancing operational efficiency, and ensuring robust data security protocols. I evaluated emerging technologies to keep our systems at the forefront of industry standards while collaborating with cross-functional teams to facilitate seamless integration of new solutions. By implementing best practices in project management and technical operations, I contributed to the overall growth and success of the organization in a rapidly evolving digital landscape. My focus was always on driving innovation while maintaining compliance and operational excellence.

IBM   2023 - Present
Senior Director of AI Strategy

As the Senior Director of AI Strategy at IBM, I spearheaded the development and implementation of AI initiatives that aligned with business goals and market trends. My role involved collaborating with cross-functional teams to identify opportunities for AI integration, driving innovation, and enhancing product offerings. I was responsible for creating a strategic roadmap for AI adoption, ensuring that our solutions were not only cutting-edge but also scalable and user-friendly. By fostering a culture of data-driven decision-making, I empowered teams to harness AI effectively, improving operational efficiency and customer experience. I also engaged with external stakeholders and partners to promote IBM's AI vision, advocating for ethical AI practices and ensuring compliance with industry standards. My leadership contributed to establishing IBM as a leader in the AI space, driving growth and competitive advantage.
